President's Report

Hello Fellow Retirees,

Aloha! ...Okay, right about now, you're probably saying to yourselves, "Oh, no, it's that Hawaiian guy again! I thought we got rid of him!" Well, that's true. However, at the January meeting of the board, our president, Don Carter, asked to step down because of health issues. Thankfully, he agreed to remain on the board, where he has been indispensable in organizing programs and obtaining donations. As there were no other takers to fill his spot, it appears you will be stuck with me again. The good news is that this is my last year on the board.

Since the last go-around as president, I have learned a lot about ETSURA, so we will not reinvent the wheel. Instead, we have come up with a few new ideas.

First, we will survey the membership on satisfaction with our current programs and activities. We also want input on other directions we might take. We thought that putting the survey on the back of your membership renewal form would be an easy way to get results back. You can send in your membership renewal/survey using the same envelope and

stamp. For lifetime members, you may have to sacrifice an envelope and stamp. Truly, this will help the board keep programs you like and drop activities you don't like.

Second, we will invite ETSURA scholarship recipients, who are in their last year of college, to the Annual Meeting/Banquet. This will be a chance for ETSU seniors to meet the real "seniors" from ET-

SU—for us to see them in person and for them to meet our distinguished retirees. Of course, our deviant hope is that this might spur further donations to the scholarship fund. From the letters we have received, these are fine individuals who appreciate the help you have given them. You may remember Heath Hill, a scholarship recipient who gave a superb vocal performance at this past Annual Meeting/Banquet. His e-mail to me was "Thank you for your kind words. Today's performance gave me the perfect chance to properly thank the retirees for the impact they have on my life and countless others. I'm very thankful for you facilitating the opportunity to express my gratitude toward them."

Third, we floated the idea of having a "mini-library" of books or other literature of interest to our members or near-retirees. These will be kept in the Office of Human Resources and be available to anyone who wants to check them out. Our first acquisition will be "The History of the ETSU School of Public Health" by Bob Patton.

So far, we have had Doug Taylor's "Eat and Chat" presentation on College of Medicine graduates (see attached article). Our next speaker will be Bob Patton, who will talk on Thursday, April 12, 2018, on his new book. Our summer luncheon (picnic) is set for Friday, June 15, 2018 at the Food City Depot, with Dr. Noland and Kari Alborado scheduled to attend. Kari is the new Director of Campus Recreation and will tell us about recent developments there. Our Annual Meeting/Banquet program is not yet set, but we have some exciting leads to pin down. Lastly, we have the November meeting of THERA (Tennessee Higher Education Retirees Association). This is held at Fall Creek Falls State Park and attended by ETSURA board members but is open to anyone. We regularly help at 2nd Harvest Food Bank every second Wednesday of the month and at "Move-In Day" at ETSU in the fall.

I hope to report the survey results in the next newsletter. We may opt to modify the remaining schedule pending those findings, and I plan to discuss this more at that time. We look forward to seeing you

February Eat and Chat

Thirteen people gathered at the Golden Corral on Feb. 15th to hear Doug Taylor talk about Quillen College of Medicine students and graduates. He is the current Associate Dean for Admissions and Records. He brought copies of *Quillen Magazine*, *Benchmarks* (magazine on the ETSU Academic Health Sciences Center), and data sheets on the College of Medicine.

Doug said that applications to the medical school average over 2,000 each year, from which 250 are interviewed and 72 are chosen. For the Class of 2021, the mean GPA is 3.73 and mean MCAT is 506. There are 2,033 graduates from the school, 73% of whom have stayed in Tennessee to practice. Over 53% have chosen Primary Care, in keeping with the original purpose of the institution. Others have gone to competitive specialty programs such as dermatology, ophthalmology, radiology, neurosurgery, and plastic surgery at institutions such as Hopkins, Duke, Vanderbilt, Emory, and Mayo. Quillen is a veteran-friendly school, having the most vets except for the Uniformed Services School of Medicine.

The College of Medicine is part of an Academic Health Sciences Center (AHSC), one of 120 in the country. The AHSC at ETSU includes the Colleges of Public Health, Clinical and Rehabilitative Health Sciences, Nursing, Pharmacy, and Medicine. The focus is to promote inter professional education and research at the university. Headquarters for the Center will be located in Building 60 on the VA Campus. Renovation of this structure (former Quartermaster's storehouse and fire station built in 1905) will include simulation labs, research space, classrooms, study space, and food service. The projected cost is \$13 million and anticipated opening is

this summer. There will be a mock apartment to enhance teaching activities of daily living on standardized patients (people trained to act as patients with one or more specific disorders). The 3rd level will be devoted to a high fidelity simulation area with 4-bay surgery/treatment suite and simulated patients (mannequins). Some expressed interest in seeing the building, and Doug said he would be happy to take the retirees on a tour when it opens.

Doug is originally from Morristown and came to ETSU in 1970. He joined the College of Medicine in 1978 when it opened and has been there ever since. He said he was first hired by Ted Mowery, who was in attendance.

I've known Doug for a long time, having worked on the Admissions Committee for many years. We were recently asked to serve as pallbearers at the funeral of a mutual friend. So there we were, in dark blazers with ETSU "E" pins in our lapels, looking like two peas in a pod. Doug: "So, Mikie, how does it feel to be a pallbearer?"

Me: "Well, it feels a lot like being an Alabama football coach."

Doug: "Whaddah yah mean by that?"

April 12th at 11:30 a.m.

Bob Patton will speak about his new book, "History of the School of Public Health".
