**1. College of Arts and Sciences**

A. Master of Arts Clinical Psychology Concentration - Substantive curriculum modifications and revised admissions standards for the Master of Arts Clinical Psychology concentration.

It is the primary objective of the Clinical Psychology concentration to prepare students to pursue the doctorate in Clinical Psychology through completion of an articulated MA/PhD program. The mission of this articulated program is to provide doctoral training in Clinical Psychology for Rural Behavioral Health and Practice in the context of integrated primary health care. Program objectives are : (1) understanding of theoretical principles and practices of psychology; (2) development of expertise in experimental design, data analysis, and oral and written presentation of research results; (3) competitive skills for professional positions in clinical psychology; (4) cultural competence in both rural and integrated health care psychological practice.

***Action Taken by Council: Approved.***

**B. Clinical Psychology Doctoral Program**

The mission of this program is to provide doctoral training in Clinical Psychology for Rural Behavioral Health and Practice in the context of integrated primary health care. Program objectives are : (1) understanding of theoretical principles and practices of psychology; (2) development of expertise in experimental design, data analysis, and oral and written presentation of research results; (3) competitive skills for professional positions in clinical psychology; (4) cultural competence in both rural and integrated health care psychological practice.

***Action Taken by Council: Approved.***
