*ARTA 2957-001 Special Topics "Digital Tools" Course Description: This course is an exploration of digital techniques in contemporary art making. We will introduce tools 3D printing and 3D scanning, as well as 2D laser cutting. Lectures will be based on the history and current trends employing technology in the arts. The focus of this course is to use digital techniques as tools to create new materials that will be integrated into traditional art production. If you have further questions regarding the content or format, contact me at mayoraz@etsu.edu.*

ARTA 4957 001 Special Topics "Art and Social Interaction" Course Description: This experimental studio art class is open to students from any area interested in challenging and expanding their artistic practice. We will explore how contemporary artists have, through their work, responded to different social environment and social issues. We will study the different artistic strategies that they used to actively interact with their audience. We will use various media to develop artworks that take into account the context and that focus on the relationship to the audience. As an example, we will explore themes such as interaction, relational esthetic, public space, and social practices. If you have further questions contact me at mayoraz@etsu.edu.

ARTA-4957-001	Special Topic: Social Interaction	84388 3	TR	11:15 AM	02:05 PM	A0011	209	MAYORAZ	ARTA	8	2	6	Y

ARTA 4957 Special Topics "Digital Tools" Course Description: This course is an exploration of digital techniques in contemporary art making. We will introduce tools 3D printing and 3D scanning, as well as 2D laser cutting. Lectures will be based on the history and current trends employing technology in the arts. The focus of this course is to use digital techniques as tools to create new materials that will be integrated into traditional art production. If you have further questions regarding the content or format, contact me at mayoraz@etsu.edu.

*"Reality," Television, and American Culture. BGSD-4950-995, "Reality," Television, and American Culture, is a WebEx Online Classroom based live video streaming section. Students will log in to the live class using a computer at the same time BGSD-4950 section 201 is scheduled. (Monday 6-9 p.m.) For minimum computer system requirements and additional information please go to <http://goo.gl/ZORnwP> (you will need to copy/paste the link). Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a class-room section must enroll in BGSD-4950- 201.*

Both biochemistry lab courses, 4157 and 4177, will be offered during Fall 2016. There are two sections of lab for each course. You will need permits to register for the labs. Because of space limitations, preference will be given to the following: Senior- Biology and Chemistry Majors in the Biochemistry Concentrations Senior majors in Biology, Chemistry, and Microbiology All others will have to wait until these preferences are provided. All permits are given by Dr. Hugh Miller, room 306 Brown Hall. His office hours are: 8:30-10:00 MWF, 10:30-11:30 TR, 3-4:30 TWRF millerh@etsu.edu

*BIOL-4957-001 is a 4 credit hour course, including lab/field study, which will provide students the skills of plant identification and an understanding of plant morphology, reproduction, and classification. Students will learn to recognize over 100 native and cultivated trees and shrubs. Concepts of plant biogeography and phylogenetics will be introduced using various tree families. The course includes various field trips to forests, a paper mill, sawmill, and/or floor factory. The course fulfills the "Diversity" menu requirement for ETSU Biology majors.*

The Title of CJCR 4957-001 is Sp Topics: Gangs. A seminar on selected topics of contemporary interest. This course will examine two different populations found in the criminal justice system. The majority of offenders under correctional supervision have used or were currently using drugs at the time of their arrest. This course will examine the scope of the drug problem as well as possible avenues for successfully treating these offenders. At the opposite end of the spectrum are sex offenders. While the number of sex offenders within the system may be comparatively small, the problems that come with managing and successfully treating these offenders are great. This course will explore the possible causes of sex offending, the response of the criminal justice system and techniques for treating these offenders.

CSCI 1100 is a required proficiency for all freshmen students. A proficiency exam or CSCI 1100 must be taken before you will be allowed to register as a sophomore. This course does not count as a UIT intensive course. A portion of this course will be taught using ETSU's distance education system. Students are required to attend class each week. Please contact the UIT office at burke@etsu.edu or 439-6970 for more information.

*CSCI 4957- 003 Special Topics - Computer Forensics - CSCI 2210 or CSCI 2910 is a prerequisite. This course introduces fundamental concepts in computer forensics. It provides essential knowledge and skills for digital forensic auditors. This includes examination of the range of commonly accepted digital forensic audit methods and tools. Please contact Dr. Mike Lehrfeld at 439-6952 or lehrfeld@etsu.edu for more information.*

*CSCI 4957-201 Special Topics - Artificial Intelligence Prerequisites: CSCI 2210 or CSCI 2910. This course provides an introductory survey of Artificial Intelligence (AI) and covers the history and theory of AI, and its associated algorithms. Basic concepts include an overview of AI; intelligent agents; problem solving and searching; knowledge, reasoning and planning; decision-making; machine learning; and emerging topics in AI. Topic exploration will involve programming components and brief written work, so good programming and communication skills are expected. For more information, contact Dr. Brian Bennett at bennetbt@etsu.edu.*

*Alright, the topic of this section of Honors Composition II -- global warming, or, more precisely, anthropogenic global warming, sometimes known by the acronym AGW, often simply called climate change -- might not sound like a ladleful of laughs. But this is one of the great issues of our time. And it turns out that a lot of recent great writing has been done on the subject, in a variety of genres. We'll read a novel by Barbara Kingsolver, an award-winning nonfiction book by Elizabeth Kolbert, and a selection of artistic, interesting, thought provoking articles. Students will write from sources in a variety of modes. You'll learn how to do academic writing on serious topics, in a way that can be engaging and, yes, even fun for your readers! For more info, see [faculty.etsu.edu/odonnell/2016fall/engl1028/](http://faculty.etsu.edu/odonnell/2016fall/engl1028/)*

*Course description: This course offers a survey about women (their lives and writing) in British literary works from the early Middle Ages to the eighteenth century. We will read some of the most important authors of the period, considering their historical and cultural context. In a discussion-based environment, we will learn to read closely a range of exciting texts and genres, looking at issues of gender, race/ethnicity, religion, and class. Students are expected to engage in creative thinking and develop writing skills in our academic journey together. This is a Women&C™s Studies elective.*

*This course will approach the study of film through a consideration of genre, specifically that of comedy. We will consider the social, cultural, and political dimensions of comedy in film as we analyze its various sub-genres over the course of film history. May be repeated for credit when content varies.*

ENGL-4290-201	Film Genres: Comedy	82177	3	M	04:00 PM	06:50 PM	A014	402	MCMANUS	LILA	23	23	0	Y

*This course will consider the cultural politics of dystopia, disaster, cataclysmic crisis, and apocalyptic desires as framed and negotiated in film. We will look at various examples from diverse historical contexts, which will include films that reference war (WW I, WW II, the Cold War, etc.), environmental catastrophe, human error with respect to technology or science and, of course, zombies. May be repeated for credit when content varies.*

*Formula science fiction, aka pulp science fiction, is a phenomenon of the mid 20th Century that established a framework for SciFi novel series that is still in use for print, television, and film series. In this course we will read and evaluate two multi-volume works of science fiction: Pohl's The Space Merchants and The Merchant's War, and Asimov's The Foundation Trilogy. Topics for discussion and exercises include identification of formula elements, phenomenology, backstory, story overview, approaches to speculative fiction and future history, and consistent elements in authors' universes. The culminating project for the course is the production of a short story (approx. 15 pages) in the style and in the universe of one of the authors - this is often called an homage.*

*Note: HIST 4957/5957-201: Digital History: Preserving and Presenting the Past Digitally. A hands-on course intended to familiarize students with the increasingly important assortment of digital tools and methods used by historians to preserve traces of the past, conduct original historical research, analyze and interpret findings, and communicate results. History majors and non-history majors welcome. Permit may be required from Instructor for enrollment for undergraduates who have not had HIST 3410.*

*HIST 4957/5957 Historical Issues and the 2016 Presidential Election : This course will examine current issues of historical importance. It will focus on the reasons for and effects of political debates over race, economics, culture, economic development, technology, international affairs and gender. Students will gain an understanding of the origins of current debates over the War of Terror, free trade, socialism/communism, taxation, immigration and other issues. Further, this course will follow the general election campaign throughout the fall semester as the presidential makes their respective cases to the American people.*

*NOTE: MATH 2010-001 will have a substantial technology-based component. The textbook and software to be used are free of cost to the student. However, students are expected to have internet access regularly. There will be in-class quizzes every time the class meets. Examinations will be proctored at the Testing Center, located on the first floor of the Charles C. Sherrod Library, at times outside the regular meeting times of this section. It is expected students do preparation work prior to each lecture, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. The methodology of choice in this section is known as "Flip the Classroom."*
