A studio art class designed for beginners. This course will focus on the basic concepts of woodworking and joinery techniques. Projects will include functional / non-functional sculptural construction and furniture design. Students will be introduced to the use of equipment including: tablesaw, bandsaw, router table, drill press and planer.

ARTA-4957-002	Special Topics: Woodworking	12827	3	TR	11:15 AM	02:05 PM	A062	111	GRAVES	ART A	12	8	4	Y
---------------	-----------------------------	-------	---	----	----------	----------	------	-----	--------	-------	----	---	---	---

Exploring multiple methods of transfer and direct printing on fabric, or jaquard weaving, using digitized imagery. Post print manipulation of the imaged materials through hand techniques in collage, piecing, painting, drawing and stitching

ARTA-4957-003	Special Topics: Digital Fabric	12865	3	MW	01:40 PM	04:30 PM	A006	427	MINK	ART A	15	14	1	Y
---------------	--------------------------------	-------	---	----	----------	----------	------	-----	------	-------	----	----	---	---

In this course students will learn techniques used for the artistic reconstruction of extinct animals, popularly known as "Paleoart". We will emphasize pencil sketching in order to develop skills of observation and interiorization of natural shapes, and we will explore the anatomy and locomotion of living animals as a basis for the reconstruction of extinct ones, using their fossil remains as a starting point. Finally we will explore a range of techniques for the creation of finished illustrations of prehistoric life. This is course will be taught by Basler Chair, Mauricio Anton. Please contact instructor of record, Christian Rieben, to request a permit for this course at rieben@etsu.edu.

PLEASE NOTE Students MUST sign up for lecture and laboratory. A common grade will be given for both.

**BIOL 1010-900 is an ONLINE course offered through the ETSU Biological Sciences Department and requires a permit to register. Send permit requests along with your E# and course CRN to connere@etsu.edu. ** Students will not be required to meet on campus or online at scheduled times. A distance learning laboratory kit is required, and it will be provided by your instructor at no extra

charge. For minimum system computer requirements and additional information, please go here: https://www.etsu.edu/onlinehelp/student_help/tech_resources.php (you will need to copy/paste the link). Please be advised you will be responsible for watching/listening to lectures on D2L and completing assignments and assessments by the posted deadlines for each. You will be required to submit electronic photos of yourself performing the home-based lab exercises in order to receive full credit. Other requirements will be addressed by the instructor. The lab portion is included in this course. Please do not register for a separate BIOL 1011 co-requisite. Students wishing to attend a campus-based classroom section must enroll in a different section of BIOL 1010.

****BIOL 1020-900 is an ONLINE course offered through the ETSU Biological Sciences Department and requires a permit to register. Send permit requests along with your E# and course CRN to connere@etsu.edu. **** Students will not be required to meet on campus or online at scheduled times. A distance learning laboratory kit is required, and it will be provided by your instructor at no extra charge. For minimum system computer requirements and additional information, please go here: https://www.etsu.edu/onlinehelp/student_help/tech_resources.php (you will need to copy/paste the link). Please be advised you will be responsible for watching/listening to lectures on D2L and completing assignments and assessments by the posted deadlines for each. You will be required to submit electronic photos of yourself performing the home-based lab exercises in order to receive full credit. Other requirements will be addressed by the instructor. The lab portion is included in this course. Please do not register for a separate BIOL 1021 co-requisite. Students wishing to attend a campus-based classroom section must enroll in a different section of BIOL 1020.

In this course, if you are a distance (online) student or have a situation that would require testing off site, then you may be required to arrange such testing at a certified testing site or through ProctorU, an online proctoring service. Both options, and other similar options, will have fees associated with them that will be the responsibility of the student to pay.

CSCI 3700-901 Management Information Systems CSCI 3700 is offered online fall, spring, and summer semesters. Online summer sections are open to all interested students. Fall and Spring online sections are open to students enrolled in distance programs where taking the course online is logistically required. To request a permit, please visit <https://www.etsu.edu/cbat/computing/permitrequest/csci3700.php>

Special Topics CSCI 4957-001 - Data Analytics This course prepares students to gather, clean, describe, and analyze data, and use advanced tools to make business decisions and answer questions about finance, risk management, marketing, healthcare, etc. This course will also expose you to the data analytics practices executed in the business world. This course has no prerequisites and provides the students with the ability to choose one of three software paths based on their programming background, which can vary from "none" to "proficient." Topics include data acquisition and preprocessing, data summarization, model selection, classification, clustering, decision trees, and data presentation and visualization. For more information please contact Dr. Ghaiith Husari husari@etsu.edu.

CSCI 4957-201 Special Topics- Machine Learning Special Topics: Machine Learning Prerequisite: Linear Algebra or permission of instructor. This course provides a broad introduction to modern machine learning topics. Machine learning is the science of getting computers to act without explicitly being programmed. Topics include: i) Supervised learning (Linear regression, Logistic regression, SVM, Neural Networks) and ii) Unsupervised learning (clustering, dimensionality reduction, recommender systems). In addition, application of machine learning algorithms will also be covered. Please, contact Ferdaus Kawsar (kawsar@etsu.edu) for course information.

Note: This is a classroom-based section. Students will attend classes in person on ETSU's main campus as scheduled. Students wishing to stream the class live from home must enroll in the web-streaming section. For further information, please contact the department.

ENVH-3040-501	Environmental Sanitation	12786	3	MWF	10:25 AM	11:20 AM	A019	132	KUSI	ENVH	30	1	29	Y
---------------	--------------------------	-------	---	-----	----------	----------	------	-----	------	------	----	---	----	---

Note: This is a live web-conference streaming section. Students are expected to log in and interact with the live class using a computer or mobile device with an attached microphone and camera at the scheduled time. System requirements can be found here: <https://www.etsu.edu/zoom>. Please be advised that any distance sections may be required to take exams at an approved testing center, and at times this can incur an additional cost. Other requirements will be addressed by the professor. Students wishing to attend a classroom section must enroll in an on-campus section. For further information, please contact the department at 439-5243.

Note: ENVH 5100 990. This is a live web-conference streaming section. Students are expected to log in and interact with the live class using a computer or mobile device with an attached microphone and camera at the scheduled time. System requirements can be found here: <https://www.etsu.edu/zoom>. Please be advised that any distance sections may be required to take exams at an approved testing center, and at times this can incur an additional cost. Other requirements will be addressed by the professor. Students wishing to attend a classroom section must enroll in an on-campus section. For further information, please contact the department at 439-5243.

Note: ENVH 4957 001 "Environmental Forensics" - The curriculum will consist of a series of case studies that are arranged to address environmental toxicology and health issues organized into several broad categories: Air quality, Water quality, Land use, Occupational health and safety, and Global effects of human activity. The cases will be designed to address environmental problems that are relevant to the Appalachian region and broadly across the United States, as well as globally. Students will have the opportunity to participate in the selection of case studies. This course is open to all undergraduate and graduate students. Preference given to students within the College of Public Health. If you have ever wondered or wanted to explore more about the health of the environment, you are invited to take a journey with us!! For further information, please contact the department at (423) 439-5243.

Winter Session

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Instructor	Department	Max Enrollment	Actual Enrollment	Seats Left	Gradable
-----------	-------	-----	---------	------	------------	----------	----------	------	------------	------------	----------------	-------------------	------------	----------

Note: "The professor invites students to contact him silver@etsu.edu to be granted access to the first module (from last summer's course). This will allow you to "sample" the narrated PPTs and coordinated materials. He will also provide a copy of last year's syllabus upon request. This year's will be available a few days before the beginning of Winter Term." ENVH 3040 W01 is being taught in a very highly accelerated format in winter term. A minimum of two modules will be covered each week. A module includes readings, discussion forum, study questions, and a quiz. (The format used in other semesters has typically been one module per week). Students should not take this course if they have more than one outside commitment such as: another course; a job; family care duties; etc. Ambitious travel is ill-

advised. No deadlines will fall on Christmas Day or New Years' Day. However, deadlines may occur in the early afternoons on the respective "eves" of the holidays (i.e., 12/24 and 12/31). As the term comes to a close, students will be polled as to whether they want to join with a portion of the class in taking an extra 10 days to complete the course, with an "I" in the interim. (The "I" will be promptly changed early in spring semester). Only 10 days, however.

*** NOTE: This course is an online section. Students may log in to the live class using a computer at the same time GEOL 1050 section 501 is scheduled or may view the recordings at a later time. GEOL 1050-990 is available to Cohort and Distance Education students ONLY. Permits are available upon departmental approval. Please contact David Jennings at (jenninds@etsu.edu) for approval to register for this course. GEOL 1050-990 lecture students must also register for the GEOL 1051-901 lab. All tests for this section will be given online. For minimum computer system requirements and additional information please go to <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link). Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a class-room section must enroll in another section of GEOL 1050.**

A readings-based course exploring the transformation of agricultural practice in the United States and the broader political, economic, social, and cultural changes reflected in agricultural change from the Colonial Era to the present. Specifically, students will examine the relationship of farming to the environment, the changing route from farm to table, and the persistence of the agrarian ideal in American discourses.

NOTE: MATH 1710-FD1 meets the first seven weeks of the term (January 21 - March 4) and has required in-person meetings twice per week. This section has a substantial technology-based component. Students must have regular internet access. Examinations will be proctored at the Testing Center, on the first floor of the Sherrod Library. Students must do preparation work prior to each in-person meeting, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. This is often known as a "flipped classroom."

---------------	------------------------	-------	---	-----	--	--	--------	--------	-------	------	---	----	-----	---

NOTE: MATH 1530-990 is a live video streaming section. Students will log in to the live class using a computer at the same time MATH 1530-521 and MATH 1530-531 are scheduled. For minimum computer system requirements and additional information please go here: <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link). Please be advised that for the 990 section you may be required to come to the main campus for tests and presentations. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a classroom section must enroll in another section of MATH 1530.

NOTE: MATH 1910-990 is a live video streaming section. Students will log in to the live class using a computer at the same time MATH 1910-501 and MATH 1910-531 are scheduled. For minimum computer system requirements and additional information please go here: <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link). Please be advised that for the 990 section you may be required to come to the main ETSU campus for tests and presentations. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a classroom section must enroll in another section of MATH 1910.

NOTE: MATH 2010-990 is a live video streaming section. Students will log in to the live class using a computer at the same time MATH 2010-501 is scheduled. For minimum computer system requirements and additional information please go here: <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link). The proctoring policy of this course may require you to attend an approved Testing Center. Please contact the instructor (cintronarias@etsu.edu) for questions concerning this policy. The methodology of choice in this section is known as "Flip the Classroom," where students are expected to have internet access regularly. Moreover, it is expected students do preparation work prior to each lecture, including: reading materials; watching video lectures; and answering online quizzes.

NOTE: MATH 2120-501 is a classroom-based section taught and delivered by Instructional Television. Students will attend classes in person on ETSU's main campus as scheduled. Recordings of each class session will be available via the course D2L page. Students wishing to stream the class live from home must enroll in MATH 2120-990. The adopted textbook for MATH 2120-501 is Notes on Diffy Qs: Differential Equations for Engineers by Jiri Lebi. A free pdf-copy can be downloaded from the URL <http://www.jirka.org/diffyqs/> (you will need to copy/paste the link). Even though the textbook is free, students may be expected to purchase an online access code; instructions will be provided in the syllabus by the first week of classes. Students are expected to have internet access regularly (either on-campus or off-campus). Examinations will be proctored at the Testing Center, located on the first floor of the Charles C. Sherrod Library, at times outside the regular meeting times of this section. Students are strongly encouraged to bring a laptop or tablet to the classroom. Contact the instructor (cintronarias@etsu.edu) for questions or to make special arrangements.

NOTE: A permit is required to take MATH 4010. Students will work on projects under the supervision of faculty members of the Department of Mathematics and Statistics. Prior to enrollment, students must consult their Department of Mathematics and Statistics academic advisor. Honors students should take MATH 4018 instead.

NOTE: MATH 1720-FE1 meets the last seven weeks of the term (March 9 - May 1) and has required in-person meetings twice per week. This section has a substantial technology-based component. Students must have regular internet access. Examinations will be proctored at the Testing Center, on the first floor of the Sherrod Library. Students must do preparation work prior to each in-person meeting, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. This is often known as a "flipped classroom."

SOWK 4957-001 Special Topic "Harry Potter & the Quest for Social Justice" Course Description: The social work profession places an emphasis on social justice and how social workers can recognize, advocate, and intervene on behalf of individuals, groups, and communities. This class will take a two-pronged approach in analyzing the Harry Potter books and movies as they relate to social justice. The first will look at the series as a work of fiction and how it relates to our muggle world and the experiences of muggles. The second approach will analyze the wizarding world within Harry Potter as a real social system in and of itself. As Sims (2012) states, "we purposely blur the distinction between life and art with the hope that, after viewing the latter sociologically [and through a social work lens], readers [and students] might begin viewing the former in the same manner" (p. 6). This class will provide an enchanted environment where students will learn to analyze 4 themes central to social work: 1) the intersectionality of cultural identity, 2) effects of trauma 3) systems of power and privilege, 4) and the change agent(s).

SOWK-4957-001	Sp Topics: Happy Potter & the	13006	3	MW	01:30 PM	02:50 PM	A021	121	CUMMINGS	SOWK	20	18	2	Y

SOWK 4957-201 Special Topic "Self-Care for Professionals" Course Description: This course will help students in the helping professions (social work, counseling, nursing, human services, ministry, psychology, education, etc.) prepare for an occupation that uses their own self as the primary method of change. The helping professions provide a tremendous sense of satisfaction and fulfillment to those who work in their respective fields, but the constant care for others also has the potential to deplete the helping professional's emotional, psychological, physical, and spiritual energy. Students will be introduced to several important concepts relative to their professional & personal well-being: self-care, compassion fatigue, burnout, secondary traumatization, and vicarious trauma. Additionally, students will be introduced to a number of instruments that will aid them in monitoring their professional & personal well-being. Most importantly, students will learn, and engage in, several evidence-based stress reduction practices that will aid them in maintaining longevity and satisfaction in their helping careers.

SOWK 4957-901 Special Topic "Family Violence" Course Description: Violence is endemic in our society. This online elective course will focus on the occurrence of intrafamilial violence. Family Violence will help students obtain substantive information about family violence, foster an understanding of the magnitude of the problem and the devastation it can cause, and provide students with practical information on prevention and treatment. The general topics for the course have been chosen specifically to cover the arenas of violence experienced by family members, including the emotional, physical, and sexual abuse of children; adult survivors of childhood physical and sexual abuse; women who are battered by partners; battering in lesbian and gay relationships; sibling sexual abuse, and elder abuse. In addition, Family Violence addresses the treatment of offenders, specifically batterers and adult and juvenile physical and sexual offenders. Less empirically informed topics such as women who sexually abuse their children and women who batter their partners also will be explored and discussed. All issues and topics are considered within an historical and contemporary socio-cultural and political context. Sexism, racism, ageism and the stereotyping of various ethnic and cultural groups will be identified and discussed as they form and influence the context of family life. The myths of family violence will be identified and demystified. Issues of social and economic justice for clients will be addressed. Relevant research will be reviewed as it informs clinical social work practice and will be assessed for biases. Students are expected to become aware of their own biases and the potential impact on their practice. The course will examine the social construction of violence and the socio-cultural maintenance of violence as it informs treatment.

SOWK 4957-902 Special Topic "Indigenous Approaches to Environmental Justice" Course Description: This inter-professional education course for social work and environmental health students examines approaches to collaborative environmental justice using examples of Indigenous efforts and accomplishments in environmental preservation. The course explores the impact environmental justice efforts have both locally and globally as well as the effect it has on all forms of life. Environmental justice is examined from ecosystems, policy, and environmental health perspectives. Students develop and implement inter-professional collaborative action plans to promote environmental justice. This course is taught online and is asynchronous.

SOWK 4957-995 Special Topic: "Child Trauma and Practice" Course Description: This class will be taught synchronous through Zoom. You will sign-in "Zoom", online video streaming on Wednesdays for 6-8:50pm. This course is the second course offered as part of the Trauma and Child track in the social work department. It assists students to acquire the practice skills to become culturally competent child welfare workers. The course will analyze the practices in social services that provide preventive, case management, out of home care, treatment, and rehabilitative services targeted for children, youth and families. The role of social services in the broad context of formal and informal systems that influence the life course of the child are addressed. The course emphasizes the unique life experiences of multicultural populations and their intersection with the foster care and adoption system, including consumers of different ages, races, cultures, socioeconomic states, and sexual orientations. Students will be prepared to recognize and address ethical issues social workers may face in a child welfare setting.

In addition, Family Violence addresses the treatment of offenders, specifically batterers and adult and juvenile physical and sexual offenders. Less empirically informed topics such as women who sexually abuse their children and women who batter their partners also will be explored and discussed. All issues and topics are considered within an historical and contemporary socio-cultural and political context. Sexism, racism, ageism and the stereotyping of various ethnic and cultural groups will be identified and discussed as they form and influence the context of family life. The myths of family violence will be identified and demystified. Issues of social and economic justice for clients will be addressed. Relevant research will be reviewed as it informs clinical social work practice and will be assessed for biases. Students are expected to become aware of their own biases and the potential impact on their practice. The course will examine the social construction of violence and the socio-cultural maintenance of violence as it informs treatment.

SOWK 4957-982 Special Topic "Indigenous Approaches to Environmental Justice" Course Description: This inter-professional education course for social work and environmental health students examines approaches to collaborative environmental justice using examples of Indigenous efforts and accomplishments in environmental preservation. The course explores the impact environmental justice efforts have both locally and globally as well as the effect it has on all forms of life. Environmental justice is examined from ecosystems, policy, and environmental health perspectives. Students develop and implement inter-professional collaborative action plans to promote environmental justice. This course is taught online and is asynchronous.

SOWK 4957-983 Special Topic "Family Violence" Course Description: Violence is endemic in our society. This online elective course will focus on the occurrence of intrafamilial violence. Family Violence will help students obtain substantive information about family violence, foster an understanding of the magnitude of the problem and the devastation it can cause, and provide students with practical information on prevention and treatment. The general topics for the course have been chosen specifically to cover the arenas of violence experienced by family members, including the emotional, physical, and sexual abuse of children; adult survivors of childhood physical and sexual abuse; women who are battered by partners; battering in lesbian and gay relationships; sibling sexual abuse, and elder abuse. In addition, Family Violence addresses the treatment of offenders, specifically batterers and adult and juvenile physical and sexual offenders. Less empirically informed topics such as women who sexually abuse their children and women who batter their partners also will be explored and discussed. All issues and topics are considered within an historical and contemporary socio-cultural and political context. Sexism, racism, ageism and the stereotyping of various ethnic and cultural groups will be identified and discussed as they form and influence the context of family life. The myths of family violence will be identified and demystified. Issues of social and economic justice for clients will be addressed. Relevant research will be reviewed as it informs clinical social work practice and will be assessed for biases. Students are expected to become aware of their own biases and the potential impact on their practice. The course will examine the social construction of violence and the socio-cultural maintenance of violence as it informs treatment.

SOWK 4957-997 Special Topic: "Child Trauma and Practice" Course Description: This class will be taught synchronous through Zoom. You will sign-in "Zoom", online video streaming on Wednesdays for 6-8:50pm. This class will be taught synchronous through Zoom. You will need to sign in to "Zoom", online video streaming, on Wednesdays for 6-8:50. This course is the second course offered as part of the Trauma and Child track in the social work department. It assists students to acquire the practice skills to become culturally competent child welfare workers. The course will analyze the practices in social services that provide preventive, case management, out of home care, treatment, and rehabilitative services targeted for children, youth and families. The role of social services in the broad context of formal and informal systems that influence the life course of the child are addressed. The course emphasizes the unique life experiences of multicultural populations and their intersection with the foster care and adoption system, including consumers of different ages, races, cultures, socioeconomic states, and sexual orientations. Students will be prepared to recognize and address ethical issues social workers may face in a child welfare setting.

SOWK 5957-984 Special Topic: " Family Violence" Course Description: Violence is endemic in our society. This online elective course will focus on the occurrence of intrafamilial violence. Family Violence will help students obtain substantive information about family violence, foster an understanding of the magnitude of the problem and the devastation it can cause, and provide students with practical information on prevention and treatment. The general topics for the course have been chosen specifically to cover the arenas of violence experienced by family members, including the emotional, physical, and sexual abuse of children; adult survivors of childhood physical and sexual abuse; women who are battered by partners; battering in lesbian and gay relationships; sibling sexual abuse, and elder abuse. In addition, Family Violence addresses the treatment of offenders, specifically batterers and adult and juvenile physical and sexual offenders. Less empirically informed topics such as women who sexually abuse their children and women who batter their partners also will be explored and discussed. All issues and topics are considered within an historical and contemporary socio-cultural and political context. Sexism, racism, ageism and the stereotyping of various ethnic and cultural groups will be identified and discussed as they form and influence the context of family life. The myths of family violence will be identified and demystified. Issues of social and economic justice for clients will be addressed. Relevant research will be reviewed as it informs clinical social work practice and will be assessed for biases. Students are expected to become aware of their own biases and the potential impact on their practice. The course will examine the social construction of violence and the socio-cultural maintenance of violence as it informs treatment.

SOWK 4957-996 Special Topic: "Child Trauma and Practice" Course Description: This class will be taught synchronous through Zoom. You will sign-in "Zoom", online video streaming on Wednesdays for 6-8:50pm. This class will be taught synchronous through Zoom. You will need to sign in to "Zoom", online video streaming, on Wednesdays for 6-8:50 This course is the second course offered as part of the Trauma and Child track in the social work department. It assists students to acquire the practice skills to become culturally competent child welfare workers. The course will analyze the practices in social services that provide preventive, case management, out of home care, treatment, and rehabilitative services targeted for children, youth and families. The role of social services in the broad context of formal and informal systems that influence the life course of the child are addressed. The course emphasizes the unique life experiences of multicultural populations and their intersection with the foster care and adoption system, including consumers of different ages, races, cultures, socioeconomic states, and sexual orientations. Students will be prepared to recognize and address ethical issues social workers may face in a child welfare setting.

SOWK 5957-980 Special Topic: "Indigenous Approaches to Environmental Justice" Course Description: This inter-professional education course for social work and environmental health students, examines approaches to collaborative environmental justice using examples of indigenous efforts and accomplishments in environmental preservation. The course explores the impact environmental justice efforts have both locally and globally as well as the effect it has on all forms of life. Environmental justice is examined from ecosystems, policy, and environmental health perspectives. Students develop and implement inter-professional collaborative action plans to promote environmental justice. This course is taught online and is asynchronous.

SOWK 5957-981 Special Topic: "Family Violence" Course Description: Violence is endemic in our society. This online elective course will focus on the occurrence of intrafamilial violence. Family Violence will help students obtain substantive information about family violence, foster an understanding of the magnitude of the problem and the devastation it can cause, and provide students with practical information on prevention and treatment. The general topics for the course have been chosen specifically to cover the arenas of violence experienced by family members, including the emotional, physical, and sexual abuse of children; adult survivors of childhood physical and sexual abuse; women who are battered by partners; battering in lesbian and gay relationships; sibling sexual abuse, and elder abuse. In addition, Family Violence addresses the treatment of offenders, specifically batterers and adult and juvenile physical and sexual offenders. Less empirically informed topics such as women who sexually abuse their children and women who batter their partners also will be explored and discussed. All issues and topics are considered within an historical and contemporary socio-cultural and political context. Sexism, racism, ageism and the stereotyping of various ethnic and cultural groups will be identified and discussed as they form and influence the context of family life. The myths of family violence will be identified and demystified. Issues of social and economic justice for clients will be addressed. Relevant research will be reviewed as it informs clinical social work practice and will be assessed for biases. Students are expected to become aware of their own biases and the potential impact on their practice. The course will examine the social construction of violence and the socio-cultural maintenance of violence as it informs treatment.
