This is an advanced course exploring contemporary artistic practices that respond to a range of cultural and social issues and environments. Students will create artwork that focuses on the idea of context and relationship to the audience. The class will explore themes and approaches such as interactive art, performance art, relational aesthetics in art, installation art, time-based art, social practice art, virtual space, and public art

BIOL 1010-900 is an ONLINE course offered through the ETSU Biological Sciences Department and requires a permit to register. Send permit requests along with your E# and course CRN to connere@etsu.edu. Students will not be required to meet on campus or online at scheduled times. A distance learning laboratory kit is required, and it will be provided by your instructor at no extra charge. For minimum system computer requirements and additional information, please go here: https://www.etsu.edu/onlinehelp/student_help/tech_resources.php (you will need to copy/paste the link). Please be advised you will be responsible for watching/listening to lectures on D2L and completing assignments and assessments by the posted deadlines for each. You will be required to submit electronic photos of yourself performing the home-based lab exercises in order to receive full credit. Other requirements will be addressed by the instructor. The lab portion is included in this course. Please do not register for a separate BIOL 1011 co-requisite. Students wishing to attend a campus-based classroom section must enroll in a different section of BIOL 1010.

The 12 hour field placement component of EDFN 2400 requires an ETSU specific background check PRIOR to the first day of class. You may get information on this process including details about fingerprinting locations on the Clemmer College, Teacher Education website or by stopping by 321 Warf-Pickel and asking for more information. All candidates are advised that progression through the teacher education programs of study requires specific test scores and grade criteria. Please see your the Clemmer College catalog or speak with an advisor for more information.

History of the US Army -- A chronological review of the history of the United States Army, by studying the people, events, and trends that affected the development and employment of the Army from its colonial beginnings thru the present. The focus of the course is on developing a concept and understanding of an "American Way of War" by studying and understanding the heritage and operational and institutional development of the US Army. Students will combine directed readings, individual research and writing, and classroom instruction to analyze the doctrine, organizations, technologies, training, and leader development foundations of events and trends throughout the history of the US Army within the context of a unique American national character.

Mathematics

First 7 Week

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Meeting Type	Instructor	Dept.	Max Enroll.	Actual Enroll.	Seats Left	Gradable

NOTE: MATH 1710-FD1 meets the first seven weeks of the term (August 24-October 9) and has required in-person meetings twice per week. This section has a substantial technology-based component. Students must have regular internet access. Examinations will be proctored at the Testing Center, on the first floor of the Sherrod Library. Students must do preparation work prior to each in-person meeting, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. This is often known as a "flipped classroom." This section, along with MATH 1720-FE1, is ideal for students who want to take their entire precalculus sequence in one semester.

NOTE: MATH 1910-990 is a live video streaming section. Students will log in to the live class using a computer at the same time MATH 1910 sections 521 and 531 are scheduled. For minimum computer system requirements and additional information please go here: https://help.webex.com/docs/DOC-4748 (you will need to copy/paste the link). Please be advised that for the 990 section you may be required to come to an ETSU campus for tests and presentations. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a classroom section must enroll in another section of MATH 1910.

Second 7 Week

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Meeting Type	Instructor	Dept.	Max Enroll.	Actual Enroll.	Seats Left	Gradable

NOTE: MATH 1720-FE1 meets the last seven weeks of the term (October 12-December 4) and has required in-person meetings twice per week. This section has a substantial technology-based component. Students must have regular internet access. Examinations will be proctored at the Testing Center, on the first floor of the Sherrod Library. Students must do preparation work prior to each in-person meeting, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. This is often known as a "flipped classroom." This section, along with MATH 1710-FD1, is ideal for students who want to take their entire precalculus sequence in one semester.

SOWK 4957-901 Special Topic "Child Trauma & Policy" Course Description": This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Meeting Type	Instructor	Dept.	Max Enroll.	Actual Enroll.	Seats Left	Gradable

This course is being offered as synchronous on-campus and distance learning classes. The lecture portion is a live video streaming section made available to students via Instructional Technology (Zoom). Students may log in to the live class using a computer at the same time the on-campus section is scheduled. There is a lab associated with this class. On-campus section students may have to come to campus at the regularly scheduled time for to complete course requirements unless they identify and get approval for an affiliate to proctor the course requirements. Distance students will need to acquire approval for an affiliate to proctor the course requirements (see affiliate section on course D2L site for approval form). Other requirements will be addressed by the professor as needed. Contact the course instructor for questions or to make special arrangements.

ENROLLMENT FOR SEVIERVILLE STUDENTS ONLY SOWK 4957-902 Special Topic "Child Trauma & Policy" Course Description": This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.

ENROLLMENT FOR ABINGDON STUDENTS ONLY: SOWK 4957-996 Special Topic "Child Trauma & Policy" Course Description": This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.

SOWK 5957-998 Special Topics "Child Trauma & Policy" Course Description: This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare

system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate and graduate students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.
