Graduate Council Annual Report
2017 – 2018

The Graduate Council convened monthly from August through November in 2017, and January through April and again in June in 2017. In addition to the monthly Graduate Council meetings, members also served on either the Graduate Curriculum Subcommittee or the Graduate Faculty Subcommittee. The Council's voting members included elected faculty representatives from the nine academic units that offer graduate programs, the Sherrod Library, the Faculty Senate, two representatives from the Graduate and Professional Student Association, and three additional at-large individuals representing graduate education.

The Graduate Council is charged with the appointment of graduate faculty, all graduate curriculum matters, and the formulation of policies relating to graduate education. The Council reviewed and approved 24 new graduate faculty appointments and 137 graduate faculty reappointments. Related to curriculum proposals, the Graduate Council approved 34 new courses and 24 course revisions. Two new graduate certificates and two new concentrations within existing programs were established. Substantive revisions were approved for 13 degrees or concentrations and 14 non-substantive revisions. The Graduate council approved the termination of five academic programs or concentrations. Two graduate education policies and procedures were revised; these included: 1) a revision of the Admission Deferral policy and procedures, 2) the Graduate Admissions policy, which was revised to allow applicants to submit unofficial transcripts with their initial application. The Graduate Council also developed and approved a Graduate Council and Subcommittee Attendance Policy.

Graduate Council members noted that ETSU's graduate faculty review procedures appear to be in line with procedures of the comparison Tennessee institutions. In terms of frequency of review and required documentation, some institutions have more rigorous procedures, and others have less rigorous procedures. Council members discussed two issues that were identified in the School of Graduate Studies Academic Portfolio Review and in the related discussion at Academic Council: 1) ETSU's stringent review process (e.g., required documentation on the application and frequency of review), and 2) notification to faculty of their expiration of graduate status. Members commented that graduate faculty could be advised to maintain documentation of their graduate activities, such as thesis and dissertation committees, on an ongoing basis in their Curriculum Vitae. Ms. Brown described the schedule and process for notifying faculty of their impending graduate faculty status expiration. Other members commented that faculty have access to their graduate status expiration information through ETSU's S-drive.
